

Key Lime Cake

Ingredients

¾ cup butter, softened

1 ¾ cup sugar

3 eggs

¾ cup lime juice

3 cups AP flour

1 tsp baking soda

1 cup buttermilk

Instructions

Set oven to 350. Beat butter and sugar. Add eggs one at a time. In a separate bowl sift flour and baking soda. Add flour to butter mixture alternately with buttermilk and lime juice. Pour into 3-9" greased and floured cake pans. Bake for 15-20 min or until edges start to brown. Ice with favorite icing (we suggest white chocolate frosting) and serve with fresh lime wedge.
